During the quarter, the Company closed on a private placement of \$86.25 million aggregate principal amount of its 4.5% Convertible Senior Notes due 2026 (the “Notes”). Braemar used a portion of the net proceeds of the offering to repay the amount outstanding under its secured term loan and expects to use the remaining net proceeds of the offering for general corporate purposes, including, but not limited to, capital expenditures or potential acquisitions.

During the quarter, and subsequent to the end of the quarter, the Company issued approximately 8.5 million shares of common stock under its At-The-Market offering, raising approximately \$51.6 million in gross proceeds.

As previously announced, during the first quarter 2021, the Company entered into a Standby Equity Distribution Agreement (“SEDA”), pursuant to which the Company will be able to sell up to 7,780,786 shares of its common stock at the Company’s request at any time during a 36-month commitment period. During the second quarter, the Company issued 765,957 shares of common stock under the equity line, raising \$4.2 million of net proceeds.

The Company continues to opportunistically exchange shares of its preferred stock into shares of its common stock. These exchanges have all been completed at a discount to the liquidation value of the preferred stock, and in total, the Company has exchanged approximately 2.0 million shares of its Series B Preferred Stock, equating to 38.8% of the original share count, into approximately 7.3 million shares of common stock.

Accordingly, the Company did not pay a dividend on its common stock or common units for the second quarter ended June 30, 2021. The Board of Directors also announced that it plans to continue its suspension of the common stock dividend during 2021 to protect liquidity and will evaluate future dividend declarations on a quarterly basis going forward.

PORTFOLIO REVPAR

As of June 30, 2021, the portfolio consisted of thirteen hotels.

- Comparable RevPAR increased 875% to \$187.31 for all hotels on a 35.1% increase in ADR and a 621.6% increase in occupancy.

HOTEL EBITDA MARGINS AND QUARTERLY SEASONALITY TRENDS

The Company believes year-over-year Comparable Hotel EBITDA and Comparable Hotel EBITDA Margin comparisons are more meaningful to gauge the performance of the Company’s hotels than sequential quarter-over-quarter comparisons. To help investors better understand the substantial seasonality in the Company’s portfolio, the Company provides quarterly detail on its Comparable Hotel EBITDA and Comparable Hotel EBITDA Margin for the current and certain prior-year periods based upon the number of hotels in the Company’s portfolio as of the end of the current period. As the Company’s portfolio mix

changes from time to time so will the seasonality for Comparable Hotel EBITDA and Comparable Hotel EBITDA Margin.

“We continue to be pleased with the operating performance of our hotels,” said Richard J. Stockton, Braemar’s President and Chief Executive Officer. “Leisure demand was strong during the quarter, our luxury resorts continue to perform very well, and our portfolio was cash flow positive for the second consecutive quarterly period. Our planned acquisition of the Mr. C hotel is a compelling opportunity to further diversify our portfolio by acquiring an irreplaceable luxury property in a premier location in the heart of West Los Angeles that fits perfectly with our strategy of owning high RevPAR luxury hotels and resorts. We are also pleased to be added to the Russell 2000®, Russell 3000®, and the Russell Microcap® indexes which we believe will help increase our visibility within the investment community and reflect our continued positive momentum and efforts to maximize value for our shareholders. Looking ahead, leisure travelers continue to lead the lodging recovery, new bookings at our properties remain strong, and, with the highest quality portfolio in the public markets, we believe Braemar is well-positioned to continue to execute on its disciplined strategy for growth.”
